SUMMARY

Experienced software engineer with over four years of expertise in developing mobile applications using React Native. Proficient in the end-to-end development lifecycle, UI/UX design, system architecture, and Agile methodologies, I've played a pivotal role in delivering high-quality and innovative solutions. With a keen eye for detail and a deep understanding of React Native, I excel in translating complex concepts into seamless and user-friendly mobile experiences. Committed to staying abreast of emerging technologies, I am poised to contribute my skills and knowledge to drive excellence in mobile application development.

EXPERIENCE

Senior Software Engineer
06/2021 - 12/2023

PT Vertika Technologies Nusantara (REY ID) ↗

Enhancing application performance and successfully reducing both the User-perceived ANR rate and User-perceived crash rate. This accomplishment not only reflected my commitment to delivering a seamless user experience but also contributed to the overall stability of the application. Recognizing my dedication and impact, I was promoted from Frontend Engineer to Senior Software Engineer. Additionally, I played a pivotal role in the development of a telehealth consultation application, where I streamlined processes to achieve greater speed and real-time functionality.

Associate Developer
05/2019 - 06/2021

PT Barito Integra Teknologi (BIT) ↗

Commencing my career as a Junior Developer at PT Barito Integra Teknologi, I adeptly managed one to three concurrent projects, demonstrating strong time management and task prioritization skills. Notable contributions include developing projects such as iSafe, SweetLife, MobilePanin Bank, and BUMA DPA, which not only enhanced my proficiency in mobile development but also cultivated adaptability in project management and collaborative skills. Within a year, my hard work and dedication were recognized with a promotion from Junior Developer to Associate Developer.

Network Management & General Service Staff
12/2014 - 03/2019

PT Bank Syariah Mandiri (BSI) ↗

My professional journey at PT Bank Syariah Mandiri (BSI) has provided me with a diverse skill set and enriched knowledge in critical business areas, including procurement, leasing, logistics, and financial management. During my tenure, I not only delved into the intricacies of balancing financial statements but also made substantial contributions to the team's efficiency by creating templates that streamlined tasks, enabling quick and easy completion. These efforts were recognized by the Head Office, where I received an award for being the top-performing Region, acknowledged for consistently submitting the most comprehensive and well-prepared reports and proposals. This experience has not only enhanced my versatility but also contributed to a holistic understanding of business operations, making me a well-rounded professional poised to bring valuable contributions to any organization.
